

This is a transparent starting point for planning a website or web application. Final pricing depends on scope, content readiness, integrations, timeline, and how much strategy/design support is needed.

Landing page

One focused page for a service, offer, booking flow or campaign.

from 700 EUR

Business website

Homepage plus key pages, responsive UI, contact flow and launch polish.

from 1,200 EUR

Full-stack platform

Custom app, admin logic, accounts, database, API or product workflows.

from 2,500 EUR

Feature pricing guide

Feature / service	Typical range	Notes
Homepage redesign	400-900 EUR	Best when the current site exists but the first impression and offer structure need work.
Additional page	120-300 EUR	About, services, pricing, FAQ, contact, case study or similar page.
Case study / portfolio modal	150-350 EUR	Problem, solution, screenshots, outcomes and CTA structure.
Booking / lead flow	150-450 EUR	Calendly/TidyCal, email flow, WhatsApp, contact form, or routing by project type.
Admin dashboard	800-1,800 EUR	Depends on data model, permissions, CRUD screens and moderation needs.
Auth / user accounts	500-1,200 EUR	Login, registration, protected pages and account states.
Database + API	700-1,800 EUR	Node/Express, Django, PostgreSQL, MongoDB or similar backend setup.
SEO setup	150-400 EUR	Metadata, sitemap basics, structured data and semantic section structure.
Maintenance	150-600 EUR / month	Small updates, monitoring, fixes, new sections and ongoing improvements.

How the process works

01. Discovery

We define goal, audience, offer, must-have features and timeline.

02. Scope

You get a clear scope, price range, milestone plan and next steps.

03. Build

Design and development happen in visible milestones with feedback points.

04. Launch

Testing, final polish, deployment support and handoff notes.

Payment terms

- Smaller projects: usually 50% upfront and 50% before launch/handoff.
- Larger projects: usually 30% start, 40% build milestone, 30% before launch.
- Urgent timelines, unclear scope or heavy content work can affect the final quote.
- Hosting, domains, paid tools, third-party subscriptions and payment provider fees are billed separately.

Fair-price principle: the goal is not to charge for every tiny change, but to keep the scope honest. Small polish is included; new features, new flows or major direction changes are estimated separately before work starts.
